During production of this article, an error was introduced in the formula on page 1771, which the authors did not notice when correcting the proof. The parenthesis under the big square root sign should be squared. The correct formula reads as follows:

$$\frac{I(P \cdot L)}{I(P)} = \frac{1}{2}\left(-1 - \frac{[P]_0}{K_D} + \frac{[L]_0}{K_D} + \sqrt{4\frac{[L]_0}{K_D} + \left(\frac{[L]_0}{K_D} - \frac{[P]_0}{K_D} - 1\right)^2}\right)$$
